"Physiology teacher"?! Ha! Gary Wilson is a part-time massage therapist in Ashland Oregon who barely made it out of high school. He is documented all over the place as misinterpreting science and is currently charged with stalking a female scientist (put her photo on a porn website). What a fraud and know-nothing looking for his 15 seconds.

Gary Wilson is not actually a "physiologist" or a "teacher". The reason this is so riddled with errors is that he is a part-time massage therapist in Ashland, Oregon with nothing happening in his life beyond his belief that "he knows better". Sometimes an education actually matters...this is one of those times. Wilson is a fraud but, worse than that, an idiot.

Science teacher?! Ha! Try part time massage therapist in Ashland, OR who didn't make it past high school! This guy is a huge fraud. He is known in science circles for stalking some woman. He posted her photo on a PORN website, and that I saw with my own eyes. You cannot trust anything that comes out of this guy's mouth.

Gary Wilson is a complete fraud, I hope no one is actually showing their children this garbage. He is a part time massage therapist living in Ashland, OR, hardly the "physiologist", his favorite fake title. I would keep your kids away too, because he has a police report for stalking some poor woman. I heard he put her photo on a PORN website! Of all things, that is exactly the kind of bullying we are trying to stop with kids!

Wow, the cover figure is even incorrect. You should know that Gary Wilson is not a "physiologist" or "science teacher". He didn't go past high school and much of this video is just incorrect information. He actually has a police report on file for stalking a woman. He put her photo on a porn website, of all things! The scientific community makes a laughing stock out of Gary Wilson on a regular basis.

It turns out this Gary Wilson barely got a high school diploma and has NO degree in "physiology" despite claiming to be a "physiologist". This article is so riddled with statistical errors I stopped reading. What a moron.

This guy barely graduated high school and claims to be a "physiologist"? He hasn't even been to college...for ANYTHING. He's a moron. A part time massage therapist in Ashland, OR clearly insecure with his lack of education and, probably, sexuality. I just saw all these posts that he was stalking some woman, putting pictures of her on a porn site? Unbelievable.

im not trying to justify anything stupid, im telling you THE FAQ! Can you get that or you

GaryWilson Stalker Says:

Jul 26, 2013 - Frank, I hate to burst your bubble here, but Gary Wilson is a part-time massage therapist in Ashland, OR. He is in huge trouble for lying about being a "physiologist" (he never went past high school) and harassing a female scientist (he posted photos of her on a porn website). Gary Wilson is a fraud, and it's all about to come crashing down. (The video information is largely incorrect or pretty thin on logic anyway.)
